

Early Literacy Programs

Baby Birds

For this program, you will commit to reading 100 books to your baby from 0-2 years old. Learning begins at birth and you are your child's first and most important teacher.

1,000 Books Before Kindergarten

The program goal is to encourage you to read 1,000 books with your 2- to 5-year-old prior to entering school. Reading together helps children learn the pre-reading skills that make a reading foundation for success in school. Sharing stories together as a family is a fun way to spend time together. Make reading a part of your daily routine and soon you will be reaching your goals!

**Register for these programs
at the children's reference desk.**
